

Engineering Systems (Renewable Energy) (Level 5)

Fife College

Venues

Glenrothes (Stenton) Campus
Rosyth Campus

Content

This course is delivered as part of Fife College Energy Transition Skills Hub, supported by Shell.

This comprehensive program offers essential skills for craft and technician levels, progression routes to higher education, and specialised knowledge in renewable engineering. Enhance your abilities in communication, numeracy, ICT, and problem-solving while opening doors to Engineering Technician status and beyond.

Units covered will include:

Electrical and mechanical principles; Renewable energy introduction; Renewable energy technology; Wind and solar power; Numeracy; IT skills.

Start Date

August

Qualification

NC

Study Method

Full time

Course Length

1 year

Department

Engineering and Energy

Entry Requirements

National 4 English, Maths and a science or technological subject; or relevant national qualifications at SCQF Level 5. Interview and aptitude test.

SCQF Level

5

SCQF Points

«SCQFPoints»

Progression Routes

Progression onto NC Engineering Systems Level 6 or a Modern Apprenticeship.
