Applied Biological Sciences

Fife College

Venues

Glenrothes Campus

Content

This advanced course provides students with opportunities to move directly into employment within Scotland's science industries or to progress to further study at university. You will gain a thorough understanding of the principles of science combined with practical laboratory work and a laboratory-based project, which are essential when entering employment.

You will develop both the theoretical knowledge and practical skills to progress your career in science.

Subjects include:
Plant and Human Biology; Instrumental Techniques; DNA Analysis; Biomedical Science.
