

Electrical, Plumbing and HVAC - Pre-Employ Apprenticeship (Level 5)

Glasgow Kelvin College

Venues

Springburn Campus

Content

This unique course includes underpinning knowledge, practical skills and experience for learners aspiring to secure a Modern Apprenticeship in Electrical Installation, Plumbing, or HVAC.

The main emphasis of the course is progression to full-time employment in the forementioned Sectors.

The course comprises of several theoretical units and practical projects that have been associated with what would be included in an apprenticeship programme. This process is to ensure that progression from the course into an apprenticeship programme is simplified.

Learners will gain underpinning knowledge of fundamentals and associated principles and will be well prepared for potential work in the Electrical Installation, Plumbing, or HVAC Sectors.
