

## Applied Biological Sciences: Biomedical route

Forth Valley College

### Venues

Falkirk Campus

### Content

This course has a strong emphasis on biomedical laboratory work that complements a detailed study of scientific theory and with innovative biotechnology practices.

Featuring hands-on learning, you'll perfect vital laboratory skills highly sought after by employers. Explore biological, biomedical, chemical and physical sciences, unlocking a range of employment prospects for Forth Valley graduates.

Through your committed participation in this programme, you will develop the skills sought after in a well-trained laboratory technician. The course provides you with excellent preparation for direct employment in research and technical support work in biomedical microbiological, pharmaceutical and food science industrial laboratories.

You can progress to a wide range of bioscience university courses, such as Biomedical Science, Biomolecular and Food Science degree programmes.

### Start Date

August

### Qualification

HND

### Study Method

Full time

### Course Length

1 year

### Department

Science

### Entry Requirements

2 Highers, preferably Biology and Chemistry; or Foundation Apprenticeship Scientific Technologies plus 1 Higher; or NC Applied Science (Level 6).

## SCQF Level

8
