Content

This broad-based course allows you to experiment with drawing, painting, sculpture, and digital design, helping you discover your unique style. You'll develop critical thinking and problem-solving skills while working on exciting projects. Whether you dream of becoming a professional artist or simply want to enhance your creative abilities, this course provides a solid foundation for your future.

During NC Art and Design you'll learn the following.

Creative Expression: You'll explore various artistic techniques and mediums, allowing you to express your creativity and develop your unique style.

Technical Proficiency: You'll gain hands-on experience with tools and materials used in drawing, painting, sculpture, and digital design.

Analytical Skills: You'll learn to critically analyse contemporary art and design works, understanding their context and significance.

Time Management: You'll develop the ability to plan, execute, and manage art and design projects from start to finish.

Problem-Solving: You'll enhance your ability to solve creative challenges and think outside the box.

Portfolio Development: You'll build a professional portfolio that showcases your skills and projects, which is essential for further education or employment.
