

Physical Activity and Health

Edinburgh Napier University

Venues

Sighthill Campus

Content

This Physical Activity and Health course has been developed with you in mind. It will provide you with the knowledge and skills to study and analyse the various aspects of physical activity/exercise and health in relation to different population groups, ensuring that you'll have both a firm theoretical and vocational grounding in the subjects that underpin the health and exercise industry.

You'll learn about the impact of physical inactivity on health and disease, and the methods for tackling health-related issues in non-exercise populations and the attached benefits.

Start Date

September

Qualification

Degree

Study Method

Part time (day)
