Sport and Exercise Science

Edinburgh Napier University

Venues

Sighthill Campus

Content

This course will provide you with a sound grounding within the three core areas essential to any applied sports scientist, being Exercise Physiology, Biomechanics and Sports Psychology.

Alongside these key areas, you will also gather an introduction to other essential components and gain practical experience that will enable you to develop skills that will benefit any level of performer. There is the opportunity to undertake a work placement as part of this course.

Start Date

September

Qualification

Degree
