

# Fabrication and Welding (incorporating NC Engineering Systems) (Nigg Skills Academy)

UHI North, West and Hebrides

## Venues

Thurso

## Content

Kickstart your career in fabrication and welding with this 16-week intensive course at Nigg Skills Academy. Delivered in partnership with UHI North, West and Hebrides, you'll complete two nationally recognised qualifications: the NC in Fabrication and Welding and the SVQ in Performing Engineering Operations (SCQF Level 5).

These qualifications provide the essential skills and knowledge needed to progress into a Modern Apprenticeship - a paid training pathway that can lead to being fully qualified in the trade in as little as 18 months to two years.

Throughout the course, you'll gain practical, hands-on experience in welding and fabrication techniques, alongside industry-relevant engineering operations. This intensive programme is designed to prepare you for real-world work in Scotland's expanding energy sector and beyond.

## Start Date

September

## Qualification

SVQ

## Study Method

Full time

## Award Title

at SCQF Level 5

## Course Length

16 weeks

## Department

Engineering, Construction and Technology

## Entry Requirements

National 4 English, Maths and a science or technological subject, SfW Engineering Skills preferred. Interview.

## SCQF Level

5

## SCQF Points

«SCQFPoints»

## Progression Routes

Successful completion of this course can be used to help you secure employment as a second year apprentice, as the course provides you with the necessary qualifications that satisfy the foundation training for the Modern Apprenticeship in Fabrication and Welding Engineering.
