City Campus

Content

Accounting and Finance are about how money is managed and how financial decisions impact businesses and society. In the BAcc Accounting with Finance course, you'll dive into these topics. You will also develop skills to analyse and manage financial practices.

You'll also explore areas like sustainability and ethics. This will help you understand the important role finance plays in building a better future. This course gives you the tools to make a difference in the world of business and beyond.

The course combines core skills and full accreditation in accounting with a specialisation in finance.
