

Business Management (3.5 years)

University of Dundee

Venues

City Campus

Content

In this course you will examine how international businesses start, operate, adapt, and grow. You will learn how to put business management techniques and models into practice and understand their limitations.

Business leaders and specialists in different areas will share the challenges they face in their organisations. You will have the opportunity to consult on a live project.

In addition, you will be able to do a short placement with a local firm to gain practical experience. Our team also offer an extensive list of summer placements.

As well as studying traditional business management subjects, we offer opportunities to explore alternative, but increasingly important areas, such as digital and business innovation, consumer experience in a digital world, economics of an unequal world, and business start-up.

Start Date

January
