University of Dundee

Venues

City Campus

Content

The BSc (Hons) IT Management for Business Graduate Apprenticeship course, hopes to not only develop your own knowledge and understanding but also help grow the business as well.

They will do this by gaining:

A broad background of business operations, procedures and culture applicable to IT.

Sufficient technical knowledge to play a key role in an IT environment.

Interpersonal skills enabling excellent communication with employees in non-IT related areas of an organisation.

A set of operational problem-solving and modelling skills.

Business knowledge to play a management role in an IT project.

Project delivery experience in a business oriented environment.
