Network Engineering and Cyber Security

Edinburgh Napier University

Venues

Merchiston Campus

Content

Computer networks form the backbone of the information world, from personal mobile devices to social media and large scale corporate data services.

With this growing trend there is a high demand for accomplished engineers who can design, develop and maintain networked hardware and software.

This course focuses on key aspects of networks, computer systems and application development which will extend to database systems and human-computer interaction.

You will gain academic knowledge in areas of computer systems with the possibility to broaden your skills through a year long work placement.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BEng Hons

UCAS Code

H602

Course Length

4 years

Department

Computing

Entry Requirements

2027 entry requirements

Standard entry:
4 Highers at BBBB plus English and Maths at National 5.

Widening access entry:
4 Highers at BCCC plus English and Maths at National 5.

For entry to year 2 you require 3 Advanced Highers at BBC.

SCQF Level

10
