Futures in Offshore Wind (incorporating SVQ Performing Engineering Operations at SCQF Level 4)

Dundee and Angus College

Venues

Arbroath Campus

Content

Power up your career in one of the world's fastest-growing industries. This course is the perfect first step towards becoming an offshore wind turbine technician.

This introductory programme combines practical, hands-on learning with essential theory, giving you a solid foundation in: mechanical, electrical, and hydraulic systems. It also includes SVQ Performing Engineering Operations at SCQF Level 4.

You'll gain the knowledge and confidence to progress into further training, apprenticeships, or employment opportunities in the renewable energy sector.

Start Date

August
