

Engineering Systems (Level 6)

Dundee and Angus College

Venues

Arbroath Campus

Content

This course will equip you with a broad range of mechanical and manufacturing skills, preparing you to work confidently across the diverse engineering industry. It combines practical, hands-on learning with theory-based study to build strong understanding and real-world application. You will have access to the college's well-resourced engineering workshops, specialist laboratories, and automated manufacturing systems. Teaching is delivered by experienced, highly qualified lecturers whose expertise has been developed through extensive work within the engineering sector.

Start Date

August

Qualification

NC

Study Method

Full time

Course Length

1 year

Department

Engineering

Entry Requirements

4 subjects at National 5 including Maths (Applications of Maths not accepted) and preferably English, Physics and a technological subject, or relevant national qualifications at SCQF Level 5.

SCQF Level

6
