

## Pre-Apprenticeship Fabrication and Welding (Engineering) (Level 6)

Forth Valley College

### Venues

Falkirk Campus

### Content

The course has been designed to provide a comprehensive blend of both practical and theoretical learning experiences. By incorporating the Performing Engineering Operations Level 2 qualification alongside the National Certificate in Fabrication and Welding, students will gain valuable hands-on skills in fabrication and welding processes, as well as a solid grounding in the underpinning engineering principles. This approach ensures that learners are well-prepared for the demands of the industry, developing technical expertise through workshop-based activities and classroom study. This structure aims to equip students with the essential skills and knowledge required to progress confidently into further training, apprenticeships, or employment within the fabrication and welding sector.

### Start Date

August

### Qualification

Other

### Study Method

Full time

### Course Length

1 year

### Department

Engineering

### Entry Requirements

3 subjects at National 5 including Maths, science or a technology subject, or relevant qualifications at SCQF Level 5. Interview.

### SCQF Level

6

### SCQF Points

«SCQFPoints»

## Progression Routes

Entry to a Modern Apprenticeship or relevant HNC.

## Combination Courses
