Digital and Data Innovation

Edinburgh College

Venues

Online only

Content

The Digital and Data innovation programme is tailored to accommodate your lifestyle, entirely free to learn, and designed to meet the demands of the rapidly expanding tech industry. Employers are actively seeking data-savvy professionals to enhance their teams, making this award a valuable asset in your career toolkit. With a focus on industry-standard software such as Power BI, this course equips you with the skills to harness data across industries, including Engineering, Health and Social Care, Marketing, Software Development, Cybersecurity, Finance, and Retail.
