

Engineering with ESOL (Level 4)

Glasgow Kelvin College

Venues

Springburn Campus

Content

This short, full-time course combines tailored ESOL learning with practical engineering training, helping you develop the language, confidence and technical understanding needed for further study, apprenticeships, or entry-level roles within engineering and manufacturing sectors.

Over 12 weeks (3 days per week), you'll study English in real engineering contexts — learning the technical vocabulary, safety language, and communication skills required in engineering workplaces. At the same time, you'll gain practical knowledge aligned to SCQF Level 4/5 engineering content, helping you understand core technical principles and workplace expectations.

Start Date

August

Qualification

NQ

Study Method

Full time

Course Length

12 weeks

Department

ESOL

Entry Requirements

National 4 ESOL.

SCQF Level

4

SCQF Points

«SCQFPoints»

Progression Routes

Further engineering study at SCQF Level 4/5 or above
