

# Introduction to Construction and Railway Operations

Edinburgh College

## Venues

Granton Campus

## Content

This exciting introductory course is designed for students looking to start a career in construction, civil engineering, or road building.

You'll gain hands-on experience across a range of practical subjects, alongside developing transferable skills and a solid foundation of theoretical knowledge relevant to the construction industry.

The course also provides essential underpinning knowledge of safe working practices in a construction setting, helping you build confidence and awareness before progressing to further study.

## Start Date

January

## Qualification

Other
