Construction - Multi Trade (Pre-Apprenticeship) (NPA)

Edinburgh College

Venues

Granton Campus

Content

This NPA Multi Trade in Construction is designed for students who wish to expand their knowledge and skills in a construction setting.

During this course, you will learn and understand the basic principles of Roofing, Plastering, Painting and Decorating, Bricklaying, Joinery, Plumbing, Electrical, Roadbuilding & Railways.

You will be taught by staff with extensive experience in the construction industry. This is a full-time course taught at Edinburgh College's Granton campus. You will be awarded a National Progression Award (NPA) in Construction Multi-Trade.

This course is taught in Edinburgh College classrooms and in our excellent workshops, where you will gain essential, hands-on, real-world experience in the construction trades.

This course offers practical, transferable skills and theoretical knowledge of the Construction Industry to help you find an apprenticeship or further study with us at the college.
