Science Foundations (Level 5)

North East Scotland College

Venues

Aberdeen Altens Campus

Content

Aimed at those with limited formal qualifications in science, this course will increase your understanding of scientific principles and practice.

A large amount of the course will involve stimulating practical activities, experiments and laboratory work – ensuring the course is exciting, engaging and informative.

Examples of practical activities may include: the study of microbial growth in foodstuffs, the production of electricity from chemicals, and the applications of physics to forensic investigations.

Course includes:
Chemistry; Biology; Microbiology; Physics; Science practical & investigation skills; Maths; Science & technology.

Start Date

August

Qualification

Other

Study Method

Full time

Course Length

1 year

Department

Science
