

## Science Foundations (Level 5)

North East Scotland College

### Venues

Aberdeen Altens Campus

### Content

Aimed at those with limited formal qualifications in science, this course will increase your understanding of scientific principles and practice.

A large amount of the course will involve stimulating practical activities, experiments and laboratory work – ensuring the course is exciting, engaging and informative.

Examples of practical activities may include: the study of microbial growth in foodstuffs, the production of electricity from chemicals, and the applications of physics to forensic investigations.

Course includes:

Chemistry; Biology; Microbiology; Physics; Science practical & investigation skills; Maths; Science & technology.

### Start Date

August

### Qualification

Other

### Study Method

Full time

### Course Length

1 year

### Department

Science

### Entry Requirements

Relevant subjects at National 5 or Introduction to Science (Level 4).

### SCQF Level

5
