

Innovation, Technology and the Law

University of Edinburgh

Venues

Central Campus

Content

This programme aims to promote advanced knowledge and understanding of the relationships between law, technology, commerce and society in the widest possible sense.

It explores the role of law in responding to, regulating and promoting new and emerging technologies, and also emphasises the role of technology in supporting and guiding legal and judicial processes.

The focus of the degree is on the international nature of the subject matter and each course offers a comparative analysis of current legal developments.
