Content

Study with UHI and explore the deep connections between philosophy and Gaelic culture through a unique joint degree. This course lets you combine two subjects that reflect your personal interests or future career goals, engaging with a wide range of ideas, themes, and critical perspectives. Develop your understanding of the nature of reality, value, and human experience, while also immersing yourself in the rich history and contemporary landscape of Gaelic language and culture.

Begin with a broad foundation in both disciplines during your first two years, then delve deeper into specialist topics that reflect current staff research in years three and four. Strengthen your analytical and research skills year on year, and enrich your learning by engaging with related subjects such as literature, history, archaeology, politics, and geography.

Take part in a dynamic learning environment that values discussion, critical thinking, and real-world application, all while gaining insight into two culturally and intellectually vibrant areas of study.

Start Date

September

Qualification

Degree
