Content

Take charge of your future with the MA (Integrated) Accounting (Graduate Apprenticeship), a powerful blend of academic achievement and real-world experience designed with you in mind.

This innovative five-year programme is tailored for motivated individuals already working in accounting or finance who are ready to accelerate their career. As you work in a professional role, you'll simultaneously study towards a Master's in Accounting and gain full ACCA qualification, all while earning and applying your knowledge in real time.

Each concept you study can be immediately applied to your work, deepening your understanding and adding real value to your organisation.

Along the way, you'll build the technical expertise, commercial awareness, and professional confidence needed to thrive as a Chartered Accountant.
