Content

This BA (Hons) Business Management with Project Management degree blends solid business know-how with the specialist tools and strategies used by professional project managers. You'll explore leadership, marketing, finance, and operations, all while learning how to plan, deliver, and evaluate projects of all sizes.

Through hands-on projects, real case studies, and industry placements, you'll gain practical experience that employers value. You'll learn to manage teams, budgets, risks, and timelines, which are essential for thriving in the modern business world.

In your first two years you'll build a foundation in the essentials of effective business management. This foundation prepares you for the options to engage with applied learning within an industry placement, or to explore diverse cultures through studying abroad within our extensive partner network.

This course offers you excellent employability skills including professional presentation, team working, leadership, communication and problem solving. You'll dive deeper into project management skills, tools, and techniques alongside contemporary and relevant issues in today's business world.
