Buillt Environment (Graduate Apprenticeship)

Robert Gordon University

Content

The Graduate Apprenticeship (GA) in Built Environment BSc (Hons) offers a dynamic learning experience tailored to real-world practice. With four specialised streams, apprentices can focus their studies on the areas that matter most to their career ambitions:

Construction Management; Architectural Technology; Building Surveying; Quantity Surveying.

The course offers a practical education that enables students to develop the knowledge and skills for application in their specialised field. The course content and delivery reflect the prominence of personal and interpersonal skills, professional practice and behaviour, environmental, sustainable, and digital practices, together with health and safety.

Throughout their academic journey, students will apply the knowledge and skills gained to design and manage real-life construction projects providing the springboard to a career as a professional within the built environment.
