Land-Based Engineering - An Introduction (Level 5)

Scotland`s Rural College (SRUC)

Venues

Oatridge Campus

Content

This course will give you a general introduction to engineering principles, as well as tractor and machinery operation and maintenance.

The course covers a range of topics, including fabrication and welding, all-terrain vehicles (ATV), tractor maintenance and operation and machinery maintenance and operation.

You'll also learn about servicing engines and transmissions, vehicle electrics and hydraulics, and health and safety.

Work experience in a real-life environment shows you how to put your learning into practice.
