

Management of Bioeconomy, Innovation and Governance

University of Edinburgh

Venues

Central Campus

Content

This programme responds to the rapid growth in the global bioeconomy by providing the core knowledge and skills needed to compete in a rapidly evolving, highly skilled workforce.

The Masters in Management of Bioeconomy, Innovation and Governance (MSc MBIG) is an innovative and dynamic postgraduate qualification designed to meet the increasing demand for skilled people in the growing global bioeconomy.

The MSc MBIG programme responds to the central challenges of the bioeconomy, including: developing sustainable innovation in a responsible manner; identifying and exploiting value throughout innovation ecosystems; and bringing new technologies to existing and emerging markets.

To meet these modern challenges, MSc MBIG provides students with a dynamic set of competencies, and knowledge about life science innovation, as highly desired by prospective employers in the public, private and not-for-profit sectors.
