

# Forensic Anthropology

University of Dundee

## Venues

City Campus

## Content

Forensic Anthropology serves the investigative and judicial communities by analysing human remains for medicolegal purposes. It is a specialised area of science that requires detailed anatomical and osteological training. Being able to assign a name to the deceased is critical to the successful outcome of all legal investigations, and this becomes increasingly complex as the body passes through the various transitional phases of decomposition. Forensic Anthropology has adopted a pivotal role in both UK and international investigations being core to issues of repatriation, mass disasters and war crimes.

The University of Dundee offered the first undergraduate training course in Forensic Anthropology in the UK.

## Start Date

September

## Qualification

Degree

## Study Method

Full time

## Award Title

BSc Hons

## UCAS Code

FL46

## Course Length

4 years

## Faculty

School of Science & Engineering

## Department

Anatomy and Human Identification

## Entry Requirements

2026 entry requirements:

4 Highers at BBBC (BBCC for widening access entry) including Biology plus Maths and Chemistry at National 5.

Advanced entry to 2nd year available with Advanced Highers at AB including Biology plus Highers at BB plus Maths and Chemistry at National 5.

## SCQF Level

10

## Progression Routes
