

Pharmacology

University of Dundee

Venues

City Campus

Content

Pharmacology is a biomedical science that studies how and where in the body drugs act to produce their effects, from the whole organism down to its individual cells. Most drugs produce their effects by interacting with particular molecular components (e.g. specific proteins) within cells.

Pharmacology also considers the body's handling of drugs – how drugs are administered and absorbed, how they distribute within the body, and how they are eventually inactivated and/or excreted, often after being modified in chemical structure by the action of enzymes found in the body.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BSc Hons

UCAS Code

B210

Course Length

4 years

Faculty

School of Science & Engineering

Department

Biological Sciences and Biomedical Sciences

Entry Requirements

2026 entry requirements:

4 Highers at BBCC (BCCC for widening access entry) including Biology or Chemistry plus Maths at B and Biology and Chemistry at C.

Advanced entry to 2nd year available with Advanced Higher Biology and Chemistry at AB or BA plus Highers at BB plus Maths at B and Biology and Chemistry at C.

SCQF Level

10

Progression Routes

«ProgressionRoutes»

Combination Courses

«htmlCombinationCourse»

«htmlCombinationUCASCode»

Address

Nethergate
Dundee
Dundee City
DD1 4HN
