Content

Health Technology Assessment (HTA) is the assessment of relevant evidence and knowledge on the effects and consequences of healthcare technologies. It contributes to priorities and decisions in relation to prevention, diagnosis, treatment and rehabilitation. This Masters in HTA focuses on the production, critical appraisal and use of scientifically rigorous research evidence, applied to a range of health-related areas.

You can exit after stage 1 with PgCert Health Technology Assessment.

You can exit after stage 2 with PgDip Health Technology Assessment.

Start Date

January

Qualification

Postgraduate Master's

Study Method

Distance and Flexible learning
