

## Clinical Education

University of Edinburgh

### Venues

Off Campus

### Content

The Clinical Education programme takes advantage of the university's world-renowned expertise to enhance your abilities to teach and assess students in a clinical environment. This is an ideal programme for those with an educational role in relation to healthcare professionals and veterinary practitioners, including doctors, nurses, dental practitioners, those involved with veterinary education or associated scientists (biomedical or social).

The aim is to help you reflect upon, and share thoughts about, your practice, while increasing your understanding of how to apply educational theories and evidence from the literature. As a result you will learn the knowledge and skills you need to deliver, develop and research high-quality clinical education in your own discipline.

You can exit at the end of 1 year with PgCert Clinical Education.

You can exit at the end of 2 years with PgDip or PgProfDev Clinical Education.

### Start Date

September

### Qualification

Postgraduate Master's

### Study Method

Distance and Flexible learning

### Award Title

MSc

### Course Length

3 years

### Faculty

College of Medicine and Veterinary Medicine
