

Neuroimaging for Research

University of Edinburgh

Venues

Off Campus

Content

The programme disseminates imaging knowledge, skills and understanding in order to enable effective and efficient use of neuroimaging in research.

The flexible, intermittent, part-time, online distance learning (OLDL) programme aims to: to provide an understanding of research that uses neuroimaging techniques; to develop research planning and designing skills, incorporating neuroimaging; to enable interpretation and analysis of relevant neuroimaging data; and to relate neuroimaging research to clinical applications.

You can exit at the end of 2 years with PgCert Neuroimaging for Research.

You can exit at the end of 4 years with PgDip Neuroimaging for Research.

You can exit after 2 years with PgProfDev Neuroimaging for Research.

Start Date

September, January

Qualification

Postgraduate Master's

Study Method

Distance and Flexible learning

Award Title

MSc

Course Length

6 years

Faculty

College of Medicine and Veterinary Medicine

Department

Edinburgh Medical School

Entry Requirements

A UK 2:1 honours degree, or its international equivalent, in Medicine, Veterinary Medicine, Radiology, Radiography, Radiotherapy, Nursing, Biological Sciences, Biomedical Sciences, Pharmacology, Chemistry, Physics, Engineering, Image Analysis, Image Processing, Computer Science, Informatics, Neurology, Neurosurgery, Psychiatry, Psychology, Stroke Medicine, Geriatrics / Medicine of the Elderly or Neurosciences.

Your application may also be considered if you have a minimum of 3 years' work experience in a related scientific area.

SCQF Level

11

Address
