

## Science Communication and Public Engagement

University of Edinburgh

### Venues

Central Campus

### Content

The field of science and communication and public engagement with science is currently enjoying unprecedented growth.

This is driven by a greater need to demonstrate the impact of publicly funded research, the need for research to be valued, increased government scrutiny and a desire for stronger evidence base for policy. Many career opportunities are emerging at the interface between scientific research and various public groups.

You will experience a variety of science communication and public engagement issues and methodologies. In the process, you will develop critical thinking skills and self-evaluation skills through reflective practice.

### Start Date

September

### Qualification

Postgraduate Master's

### Study Method

Full time

### Award Title

MSc

### Course Length

1 year

### Faculty

College of Medicine and Veterinary Medicine

### Department

Edinburgh Medical School
