

## Reproductive Biology

University of Edinburgh

### Venues

King's Buildings Campus

### Content

Reproductive biology aims to understand the scientific principles that govern reproduction in humans and other mammals.

You will study the requirements for reproduction, including the production of sufficient numbers of viable gametes, fertilisation, implantation in a 'receptive' uterus, and formation of a placenta that can sustain and nurture a baby, and delivery at full term.

Advances in this field have provided the knowledge for assisted conception and have revolutionised reproductive medicine and veterinary practice.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

BSc Hons

### UCAS Code

C142

### Course Length

4 years

### Faculty

College of Medicine and Veterinary Medicine

### Department

Biomedical Sciences

## Entry Requirements

2024 entry requirements

Standard entry:

4 Highers at AABB (first sitting) or 4 Highers at AAAB (two sittings) including Biology and Chemistry. Maths or Physics recommended plus Maths at B and English at National 5. Advanced Higher Biology and Chemistry recommended.

For entry to second year you would need Advanced Higher Biology and Chemistry at AB.

Widening access entry:

4 Highers at ABBB (by end of S6) including Biology and Chemistry. Maths or Physics recommended plus Maths at B and English at National 5. Advanced Higher Biology and Chemistry recommended. Highers at BBB must be achieved in one sitting S4-S6.

## SCQF Level

10
