

Prosthodontics

University of Dundee

Venues

City Campus

Content

This is an established and popular modular course in fixed and removable prosthodontics and is suitable for dentists contemplating an academic career or to improve your clinical practice.

You will develop enhanced skills and understanding of the scientific basis and practice of prosthodontics so that you become competent in the diagnosis and treatment of more complex problems.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MDS

Course Length

24 months

Department

Medicine, Dentistry and Nursing

Entry Requirements

You must have a degree in dentistry and must have at least two years clinical experience following graduation. As this is a clinical course, your level of English is highly important.
