

Medicine

University of Dundee

Venues

City Campus
Ninewells Campus

Content

Our course is innovative, student-centred and community-based, and follows the recommendations of the General Medical Council, the professional governing body for medicine in the UK.

Dundee allows you to study medicine in a friendly, responsive and student-centred environment. Our comparatively small size as a medical school works to your advantage: there is close integration of teaching and research activities, and our medical students are fully involved from an early stage in pioneering new approaches to teaching, clinical practice and research. Ninewells Hospital and Medical School is the centre of many areas of pioneering research in cancer, keyhole surgery, heart disease, drug development, and medical education.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

MB ChB
