

# Applied Animal Behaviour and Animal Welfare

University of Edinburgh

## Venues

Royal (Dick) School of Veterinary Studies

## Content

This programme has popular international appeal and is endorsed by many international organisations for its up-to-date understanding and application of the latest animal welfare methods and practices.

Students are provided with an understanding of animal welfare that can be applied in animal research, management, care, production, inspection, assessment and preparation of legislation.

In addition to the core teaching team, many guest lecturers travel to Edinburgh each year to teach on the programme, allowing you to benefit from the experience and knowledge of professionals working throughout the animal behaviour and welfare community.
