

Geography

University of Edinburgh

Venues

King's Buildings Campus

Content

Geography is the study of the way the world works. As a result, understanding geography is very important in this day and age.

You can study geography in two ways:

as a natural science through physical geography

as a social science or humanities subject, through human geography

You can explore the physical processes of our planet, such as: volcanoes; flooding; and climate change.

You can also address human issues such as: sustainability; health; and social justice.

This programme is focused on physical geography.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BSc Hons

UCAS Code

F800

Course Length

4 years

Faculty

College of Science and Engineering

Department

Geosciences
