

## Mathematics

University of Edinburgh

### Venues

King's Buildings Campus

### Content

#### Year 1

You will take the compulsory courses Linear Algebra, Calculus and Proofs & Problem-Solving. These are common to all our programmes and will take up half of your timetable.

They will allow you to build on your knowledge of pure mathematics and will introduce you to the more rigorous ways of mathematical thinking required at university level.

You will also take courses in subjects other than mathematics.

You will receive support from MathsBase, our popular walk-in help centre, and from our Student Learning Advisor.

#### Year 2

You will spend between half and two thirds of your time on mathematics.

You will take compulsory courses in pure mathematics, extending your knowledge of calculus, probability and analysis, and will be introduced to the abstract ideas of group theory. Other topics include statistics and applied mathematics.

From this year onwards you can use the Maths Hub, our student-run facility that is both a social centre and a work space.

#### Year 3

You will focus on the main subjects of your programme. You will receive an excellent grounding in advanced mathematics, preparing you for the options available later in your programme.

#### Year 4

You will have a wide range of mathematics courses to choose from and you can follow a programme that suits your particular interests and career aspirations. We offer a large selection of courses in pure and applied mathematics, statistics and operational research.

You can take options in areas such as mathematical education, financial mathematics and mathematical biology. Current course titles include Fundamentals of Optimization, Algebraic Geometry and Multivariate Data Analysis. You will have the opportunity to complete a project that will allow you to research a topic in depth.

#### Year 5

During this year you will take courses at masters level. You will also complete a substantial project.

**Start Date**

September

**Qualification**

Degree

**Study Method**

Full time

**Award Title**

MMath

**UCAS Code**

G101

**Course Length**

5 years

**Faculty**

College of Science and Engineering

**Department**

Mathematics

**Entry Requirements**

2023 entry requirements

Standard entry:

4 Highers at AAAB (minimum) but typically 5 Highers at AAAAA (by end of S5 preferred) including Maths at A plus English at National 5. Advanced Higher Maths is recommended.

Direct entry to year 2 is possible with 3 Advanced Highers at AAA including Maths. A science subject is recommended.

Widening access entry:

4 Highers at AABBB (by end of S6) including Maths at A plus English at National 5. Advanced Higher Maths is recommended. Highers at BBB must be achieved in one sitting S4-S6.

**SCQF Level**

11
