# Astrophysics

University of Edinburgh

## Venues

King's Buildings Campus

## Content

Astrophysics introduces you to the basics of physics and demonstrates how this knowledge can be applied to the physics of astronomy.

On this degree programme, we try to provide a unique and deep insight into the major scientific controversies of our time.

Recently, there have been dramatic astronomical discoveries, and large amounts of data have been gathered. Therefore, this is a very exciting time to study astrophysics.

Compared to the BSc, the MPhys Astrophysics degree programme provides broader and deeper exposure to the concepts, methods and phenomena of physics. You will also gain experience of research work through an extended project. This provides a foundation for further research studies in physics.

## Start Date

September

## Qualification

Degree

## Study Method

Full time

## Award Title

MPhys

## UCAS Code

F361

## Course Length

5 years

## Faculty

College of Science and Engineering

## Department

Physics and Astronomy

## Entry Requirements

2027 entry requirements

Standard entry:
4 Highers at AAAA (by end of S5 preferred) including Maths and Physics plus English at National 5. Advanced Higher Maths is recommended.

Direct entry to year 2 is possible with 3 Advanced Highers at AAA including Maths and Physics.

Widening access entry:
4 Highers at AABB (by end of S6) including Maths at A and Physics plus English at National 5. Advanced Higher Maths is recommended. Highers at BBB must be achieved in one sitting.

## SCQF Level

11

## Progression Routes

«ProgressionRoutes»

## Combination Courses

«htmlCombinationCourse» «htmlCombinationUCASCode»

## Address

Old College
South Bridge
Edinburgh
City of Edinburgh
EH8 9YL
