Theoretical Physics

University of Glasgow

Venues

Gilmorehill Campus

Content

Year 1: In first year you will gain a basic understanding of the core topics in theoretical physics, receive an introduction to the methods of experimental physics and obtain a solid foundation for further study of the subject. Courses you will typically study are dynamics, wave motion, properties of matter, thermal physics, optics, electricity and magnetism, and quantum physics.

You will also study two other subjects in year 1 according to your interests: see Degrees in Arts, Science and Social Sciences.

Year 2: In second year you will extend and deepen your broad physics education, undergo further training in more specialised experimental techniques and expand your awareness of the latest developments in modern physics research.

Courses you will typically study are physics of waves, dynamics, physics of solids, thermal physics, electricity and magnetism, nuclear and particle physics, physics of optics, and mathematical techniques.

You will also study one or two other subjects in year 2 according to your interests: see Degrees in Arts, Science and Social Sciences.

Years 3, 4 and 5: If you progress to Honours (years three and four) you will continue to study in greater depth core topics spanning all areas of physics, from sub-atomic particles to optics and electromagnetism, explore a range of specialist topics of your choice: including highlights of the very latest cutting-edge research; and undertake project work, often within a world-leading research group.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

MSci

UCAS Code

F340

Course Length

5 years

Faculty

College of Science and Engineering

Department

School of Physics and Astronomy

Entry Requirements

2027 entry requirements
Standard entry: 5 Highers at AAAAA (by end S6 with min BBBB after S5) including Maths and Physics at AA (AB or BA may be considered).

Entry to year 2 may be possible with 3 Advanced Highers at AAA including Maths and Physics plus Highers above.

Widening access entry: 4 Highers at AABB/BBBB (by end S6) including Maths and Physics. Completion of pre-entry programme is necessary.

SCQF Level

11
