

Psychology (Higher)

Edinburgh College

Venues

Community Outreach
Sighthill Campus

Content

Psychology Higher will teach you how to explore the human mind and behaviour in a range of contexts. This course will show you how to study and explain human behaviour through academic evidence as well as enhance your employability skills.

As Psychology is both an evidence and research-based subject, this course will provide you with the opportunity to conduct practical research. This will include working with human participants in accordance with recognised ethical standards. This course is academically challenging and requires the ability to study independently.

Start Date

August
