# Computing and IT

Open University in Scotland

## Content

Get ready for a rewarding career in the rapidly growing technology sector with our BCS-accredited computing and IT degree. This future-facing course is informed by the latest industry needs, helping you develop the technical skills and expertise to thrive as an in-demand IT professional. You'll start by exploring the hardware, software and systems that power modern businesses, learning to confidently manage networks or databases and develop software solutions to real-world challenges. As you progress, you can tailor your studies around your career goals, following a broad route or diving into cyber security, networking, software engineering, web development and more.
