

Computing and IT

Open University in Scotland

Content

This degree will help you to become a confident user and manager of information technologies; administer and manage network or database systems; and develop software solutions. Computing and IT skills have become fundamental to the way we live, work, socialise and play; they can open up the world of technology and an array of exciting career opportunities. This degree will give you a sound grasp of the principles of hardware-based, software-based, or systems-based technologies, and the ability to apply your knowledge and skills in a broad range of industries and organisations.

Start Date

October, February

Qualification

Degree
