Agriculture (Level 6)

Scotland`s Rural College (SRUC)

Venues

Aberdeen Campus
Barony Campus
Oatridge Campus

Content

In today’s agricultural environment it is more vital than ever that tomorrow’s farmers and their staff have the training to face the future as both food producers and guardians of the countryside.

That's why this course aims to increase your knowledge of agriculture, and give you sound practical skills and up-to-date technical experience.

You'll develop both independent learning skills and team working skills which will provide a strong foundation for future study and/or employment in the industry.

Content includes: Livestock production; Grassland production; Tractor operation.
