

## Introduction to Sound Production (Level 5)

Ayrshire College

### Venues

Ayr Campus

### Content

This is an exciting and hugely popular course aimed at creative types who like a bit of tech. Incorporating an NPA qualification, it will give you basic skills in sound production and a great foundation for further study.

You'll learn using world class equipment and the latest industry software, including Pro Tools, Ableton and MIDI (Musical Instrument Digital Interface) sequencing. Your assessments will be based on real-life products in post and music production, in a variety of genres.

The main focus of the course is on sound design, and sound engineering and production.
