

## Illustration

Glasgow Clyde College

### Venues

Cardonald Campus

### Content

On this course, you'll immerse yourself in the vibrant world of illustration – from initial sketches and concept art to fully realised, professional works. This course is centered on exploration, experimentation, and pushing creative boundaries. You'll develop your own artistic voice while mastering industry-standard digital and traditional illustration tools, discovering how innovative ideas come together to shape the illustration industry of tomorrow.

Creativity, drawing and craft are at the core of everything you do. You'll be encouraged to take risks, think imaginatively, and challenge visual conventions, while building the practical skills and confidence needed for a dynamic creative career, whether you're beginning your journey or exploring a new artistic direction.

In year one you will study:

Mixed media; Observational drawing; Digital imaging; Art and design context; Art and design project; Printmaking and producing print; Typography; Illustration; Developmental drawing; Graded unit 1.

In year two you will study:

Animation: an intro; Developmental drawing portfolio; Mixed media portfolio; Creative arts project: Development; Printmaking in multiple layers; 3D; Digital imaging project; Graphic design project; Graded unit 2.
