

## Creative Industries: Television

Glasgow Clyde College

### Venues

Cardonald Campus

### Content

This course is one of only two HNC/HND courses in Scotland to be awarded the ScreenSkills tick. This ensures that the course keeps up with the rapid pace of creative change, and student's benefit from using the latest technologies and working with industry throughout their studies.

#### Year 1

Build technical skills including camera operation, lighting, editing and sound recording. Develop production and directing skills through numerous projects and assignments, which allow you to build a portfolio of practical projects.

#### Year 2

Expand your technical skills through our multi-camera and vision mixing units. Pitch, develop and produce factual and drama projects. Gain industry understanding through master classes delivered by working professionals; create a show reel and CV highlighting your practical skills.

### Start Date

August
