Introduction to Computing (Level 4)

Glasgow Kelvin College

Venues

East End Campus

Content

This full-time, one-year course introduces you to the core areas of modern computing — from software development and web design to robotics and networking. You'll gain valuable hands-on experience and a solid foundation in IT and digital technology.

Designed as an accessible starting point, the course combines creative and technical learning to help you build confidence, teamwork, and problem-solving skills. It's the perfect pathway for anyone considering a future in the tech industry.

Course units include:

Robotics; Software Development; Multimedia; Computer hardware; Computer software; Refurbishing and Recycling Computers; Study Skills; Employment Skills.

The course also includes a National Progression Award (NPA) in Computer Refurbishment.
